

New patch up sheet holder

CatchIt II

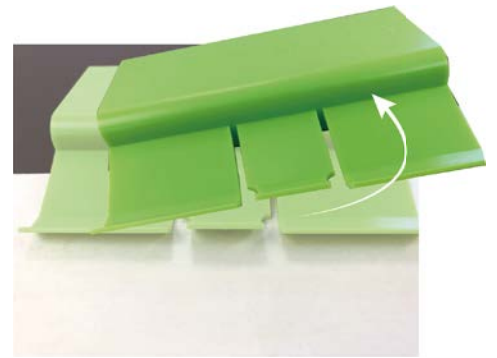

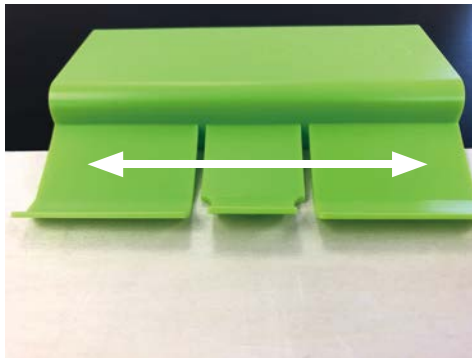

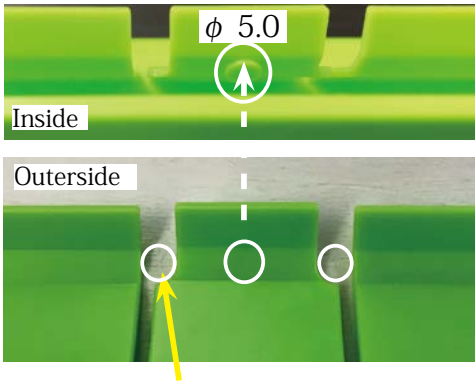

- Easy setup
 - Perfect lock
 - Keep tidy in order
 - Avoid missing
- Quick attachment and simple strage.
It bites a dieboard with protrusion.
Clear strage with die boards.
Save time to look for sheets.

1. Direction

2. Insert a dieboard with angle as picture.

3. Slide CatchIt until the end.

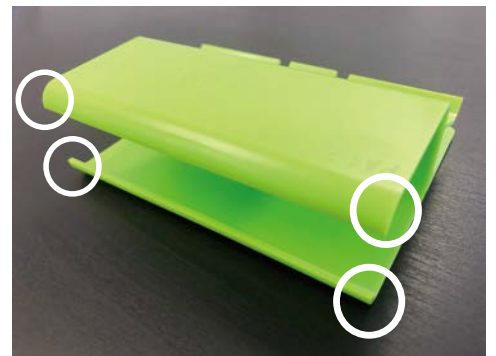

4. Make a 6.0mm dent on a dieboard (1.0mm depth enough)

5. Slide up to fit the dent with click sound.

6. How to take out
Detach CatchIt with twist as picture above to unlock easily.

When you use CatchIt, be careful of white circles.
